

# SITE LAYOUT/ SURVEY ENGINEER

**\$57,050 AVERAGE ANNUAL SALARY\***

If math, measuring and engineering is your strength, consider a career in site layout. Surveyors are the first on the site to gather data about the elevation, contour and dimensions of the land being developed. This data gets used for everything from mapmaking, mining, engineering and general construction. Survey jobs are available in every segment of the construction industry including highway and bridge construction, pipeline and mining.

## Education Options

- Technical schools
- Community colleges
- Registered apprenticeships
- Industry training programs

*Students can start in high school where programs are available.*

*\*Average base salary does not include overtime or incentives.*
