

CIVIL ENGINEER

\$79,340 AVERAGE ANNUAL SALARY*

Do you take joy in designing and executing plans? Would you like to see your ideas built right in front of your eyes? Then becoming a civil engineer may be for you. Civil engineers design, construct, supervise, operate and maintain large construction projects and systems including roads, buildings, airports, tunnels, dams, bridges and systems for water supply and sewage treatment. They spend time both in the office and on the project site therefore craft experience is an absolute plus!

Education Options

A bachelor's degree, master's degree or project management certification is required.

**Average base salary does not include overtime or incentives.*
