

VETERANS ARE ELIGIBLE FOR NCCER CREDENTIALS

The Hard Hat Heroes Credentialing Portal allows veterans to receive NCCER credit for skills and training received while in the service. Each individual that meets the criteria can fill out an online application and submit documentation to be reviewed and potentially entered into the NCCER Registry System.

Portal Overview

- Consists of:
 - 10 Army military occupational specialty (MOS) codes
 - 36 Navy Seabee rates
 - 8 Air Force specialty codes (AFSC)
- Aligns directly with NCCER craft training
- Displays defined levels, modules and NCCER crafts that align to specific MOS codes
- Assists hiring managers in skill identification and training preparation

All alignments within the portal were developed in conjunction with military trainers and industry representatives. More alignments are in development with the other branches of service and are due to release throughout the year.

Additional Opportunities for Qualified Service Members

- Hard Hat Heroes now offers FREE online core curriculum
- Course can be requested individually or provided to organizations that train veterans

Visit veterans.byf.org for more information about updated task alignments, online core curriculum and how to get involved as a **Military Friendly Employer**.
